Shenzhen Shangsha Co., LTD. three-dimensional garage

Address: Shangsha village, Shenzhen

Investor: Shangsha Industrial Co., LTD

Equipment type: Platform-lift Parking system (PCY), 11 levels above ground

Transfer cabins: 6

Parking spaces: 300

Project Description:

Shangsha Village is a typical urban village in Shenzhen, with a large number of white-collar workers working in CBD. There are many private vehicles in this area which brings a great challenges for parking. With the reconstruction for the traditional parking lot in Shangsha Village by equipping Yeefung automated parking system, the parking spaces is increased from original 30 parkings lots to 300, which greatly alleviated the surrounding parking pressure.
